Obtaining Academic Credit: U.S. School Form

Student Information

Student Name	Current year: Freshman/Sophomore/Junior/Senior	High School

AFS Program: year/semester/summer	AFS Program during: Freshman/Sophomore/Junior/Senior

A. To be completed by a School Counselor, before the student departs for host country

This form is intended to outline an arrangement—determined and agreed to by the school counselor, student and parent—for obtaining academic credit for course work taken abroad, in order for the student to meet graduation requirements. While abroad on his/her AFS program, the student will be enrolled in a local high school and will live with a host family. The educational benefits of an immersion study abroad experience include language acquisition, cultural competency, and hands-on experience of world history, sociology and geography, supplemented by classes taken at the host school.

School Counselor Steps:

1. Indicate the courses typically required by your high school to meet graduation requirements, during the year/semester the student will be studying abroad. If more space is needed, attach additional sheets.
2. Select the box(es) representing the accepted method(s) by which the student can obtain academic credit for the courses indicated.

The student is responsible for providing documentation of courses taken as outlined above. Host school credit documentation may include: AFS host school academic form and/or transcripts and teacher evaluations from host school. If documentation is provided to show that the student has acquired necessary course work, as outlined above, he/she will receive credit from our school.
